Summary

I am a BS Computer Science final-year student with a strong interest in Python programming, Machine Learning, Computer vision. I have hands-on experience working with Python libraries for data handling and visualization. I am motivated, quick to learn, and eager to apply my skills in real-world projects and professional environments.

Skills

Programming & Querying: SQL, Python

Data Visualization Libraries: NumPy, Pandas, Matplotlib Seaborn

Projects

Voice Assistant (Personal Project) | Python

- Developed a Python-based voice assistant similar to Siri/Alexa using speech recognition and text-to-speech libraries.
- Implemented voice commands for tasks such as searching information, opening applications.
- Integrated APIs and modular functions to allow easy feature expansion.

Data Cleaning & Visualization Projects | Python, Pandas, Matplotlib, Seaborn

- Cleaned and pre-processed raw datasets by handling **missing values, duplicates, outliers, and data type issues**.
- Performed **exploratory data analysis (EDA)** to uncover trends and anomalies.
- Created meaningful visualizations (bar charts, line plots, heatmaps) to communicate insights effectively.
- Applied best practices for **data consistency, readability, and reproducibility**.

Awards & Certifications

Awards & Certifications

- **Academic Achievement Award** – *Comsats university Islamabad Abbottabad Campus*
Awarded for outstanding academic performance in semester examinations.
- **Junior Coding Competition Certificate** – *university level*
Earned a junior competition certificate for competing in a coding competition focused on logical and programming skills.

Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCE (BSCS) Final Year Student Comsat University Abbottabad with CGPA:3.86/4
